

# Compagno™ Bluetooth Keyboard with European Style Carrying Case for iPad

To enhance your typing experience, Adesso designed this keyboard to be fast and “whisper” quiet. Our standard key layout includes iPad and Multimedia Hotkeys that make for easy use of your iPad’s multimedia tools and shortcuts. The Compagno is also “removable” should you want to use it with any other Bluetooth device such as your PC or a Bluetooth Smart Phone. The silicon material used in our keyboard protects it against spills and can easily be wiped clean with a damp cloth or disinfectant. Our case is designed to offer multiple viewing angles for either heavy typing or just to relax and watch a movie. The one touch Bluetooth button allows for easy connectivity and having a built-in rechargeable battery means never having to shop for replacements.

## ■ Detachable Wireless Keyboard

The keyboard’s Bluetooth technology offers you 30 feet of wireless freedom and the included Polymer rechargeable battery is easily recharged by connecting the USB cable (included) to a computer.

## ■ Wireless Keyboard is Waterproof, Silent and Fast

The keyboard is wrapped with a silicone material that will protect it against spills and offers the ability to remove germs with liquid disinfectants or soap and water. Unlike other silicone keyboards the rigid backing on the Compagno provides a fast response, while the tactile key switches are almost silent.

## ■ Multiple Viewing Angles

The Compagno offers multiple viewing angles so you can easily answer e-mails, browse the Internet and watch videos.

## ■ Stylish Faux Leather Case

The Compagno’s faux leather case has contemporary styling that protects and looks good while on the go.
